My name is Bobby Brown, I 'm working with a company by the name of Vital Health founded by Dr. Tony Rodriguez, a Naturopathic Doctor and Holistic Nutritionist in Mexico. Dr. Tony has people flying in from all over the world to see him for treatments for a wide range of serious health issues. Up until very recently, the only way to get the products he formulates and treats his patients with was to go to his clinic in Mexico. Now we have access to these products along with a biometric scanner with proprietary software that checks 45 vital points in your body. This scanner gives you a detailed report that shows you the specific supplements you need to address your problem areas. Because people are getting the nutrients they are deficient in, they feel the difference very quickly! The best part is you don't have to fly to Mexico to get these supplements.

### **Game Over. VitalHealth Changed the Rules.**

#### **No one Can Compete!**

**Proven Results:** Our exclusive scanner proves the products work – real data, real impact. Get a 122 page report of 45 major systems in your body!

**Clinically Trusted:** Used in over 500 clinics for 10+ years – this is a proven health system, not a trend.

**Superior Products:** Backed by cutting-edge Nano Technology, our formulas deliver faster, deeper results you can feel quickly.

**Built-In Cost Advantage:** We own the labs and manufacturing, keeping quality high and prices low.

**Massive Opportunity:** Be the first to share Vital Health in the USA and Canada.

### **Here's how to prove the products work on you!**

Scan your body before using the product

Use the supplement for a week

Scan again and see real, measurable improvements in your numbers

It's fast, simple, and shows exactly how your body responds — no guesswork.

Vital Health is a game changer, holistic wellness at its best,

Access products to help detoxify, restore, nourish & awaken your health journey using the latest nano-technology & adaptogens at affordable prices!

**Nano-technology** is the science of working with things at an extremely tiny scale — so small you can't see them with your eyes. In simple terms: It means breaking ingredients into super tiny particles so your body can absorb them faster and better.

For example, in wellness products, nano-technology helps vitamins, herbs, or nutrients work more effectively and go exactly where your body needs them.

Adaptogens are natural herbs and plants that help your body adapt to stress, boost energy, and support overall balance.

They work by regulating your body's stress response, helping you stay calm, focused, and energized — especially during physical or emotional stress.

### **How Vital Health Uses Adaptogens:**

Vital Health includes adaptogens in its products to help:

Reduce fatigue and brain fog

Support a healthy mood and focus

Boost immune function and recovery

Balance hormones naturally

By combining adaptogens with nano-technology, Vital Health makes sure these powerful herbs are absorbed quickly and work more effectively in your body.

How is this all possible, that people can tell a difference in the first day of using Vital Health Nutrations?

Because our products are **Chelated and Methylated**.

### **What is Chelated?**

Chelation means attaching a nutrient (like a mineral) to something your body recognizes — usually an amino acid — so it can absorb it better.

Think of it like packaging the mineral in a way your body can easily carry and use.

Example: Chelated magnesium is more easily absorbed than regular magnesium.

### **What is Methylated?**

Methylation is a natural process your body uses to:

Turn genes on or off

Detoxify

Create energy

Balance hormones and mood

Some people's bodies don't methylate well due to genetics (like MTHFR mutations), so they need methylated nutrients — already in the form the body can use.

Example: Methylated B12 (methylcobalamin) is ready to work in your body without needing conversion.

### **How Vital Health Uses These Processes:**

Vital Health uses chelated minerals to make sure your body absorbs them easily and fully.

It includes methylated vitamins to support energy, detox, mood, and gene health, even in people with methylation issues.

Combined with nano-technology, this makes their products highly bioavailable and fast-acting.

In short:

Chelated = better absorption

Methylated = ready-to-use form

Vital Health = using both for maximum results.

**"Vital Health holds nothing back — offering pure, organic ingredients processed with cutting-edge technology, all at the most affordable prices ever seen in premium wellness products."**

Vital Health is using epigenetics to help improve wellness by influencing how your genes express themselves — without changing the actual DNA code.

In simple terms:

They target gene activity, not the genes themselves.

They work with natural mechanisms like:

DNA methylation – turning genes off when needed.

Histone modification – turning genes on or off by tightening or loosening DNA packaging.

This helps the body activate helpful genes and silence harmful ones, supporting better health, energy, and balance at the cellular level.

The game is over in the world of nutritional supplements.

But how do we prove our products work — faster and better?

By turning to the latest in medical technology.

My name is Bobby Brown and my Wife Cathy was diagnosed with Type2 Diabetes 1 year ago, her A1C was 14.5. Her Doctors put her on Ozempic®, Jardiance, Metformin, and Lisinopril. Since then her A1C has not dropped below 10 even on those potent drugs and side effects. Since using VitalHealth Products, S- Balance and V-Itaren we checked her A1C In July after one month and her A1C was 7.1 Amazing! We will continue moving forward in hopes of getting her off those powerful pharmaceuticals.

If you have any questions about any of our powerful all natural products please feel free to call on me anytime. My personal information is listed below.
